

Safety and an aesthetic view
with smart design...

Panasonic Distribution Boxes

Smart Design with Transparent Cover

Panasonic Distribution Boxes deliver safety and an aesthetic view with their smart design. Panasonic Distribution Boxes also meet work comfort expectations in the best possible way with their large inner volume.

Isolated Terminal Connector

- Prevention of fires and flames that may be caused by heat increase in terminals
- Protection of the users from these hazardous effects of electric arc or possible electric current leakages

HALOGEN FREE

According to the International Electrochemical Commission, a substance must consist of less than 900 parts per million (ppm) of chlorine or bromine and also have less than 1500 ppm of total.

RoHS

Restriction of Hazardous Substances Directive Evidence of human health and environment protection where harmful effects of metals (lead, mercury, chromium, etc.) are prevented and recycled.

Panasonic Distribution Boxes Safety First

- Conform to IP40 protection standard for both flush and surface mounted models from 2 frames to 36 frames.
- Class II; electric shock-protected
- Temperature range during installation $-15^{\circ}\text{C} / + 60^{\circ}\text{C}$
- Flame and fire-resistant up to 650°C
- 180° screw-in covers depending on the place of use
- DIN rail is made of galvanized sheet
- Provides comfort in mounting and working, thanks to its large inner volume
- Resistant against heat and impacts
- Grounding terminal and connection accessories are available
- All products are halogen free and comply with RoHS regulations
